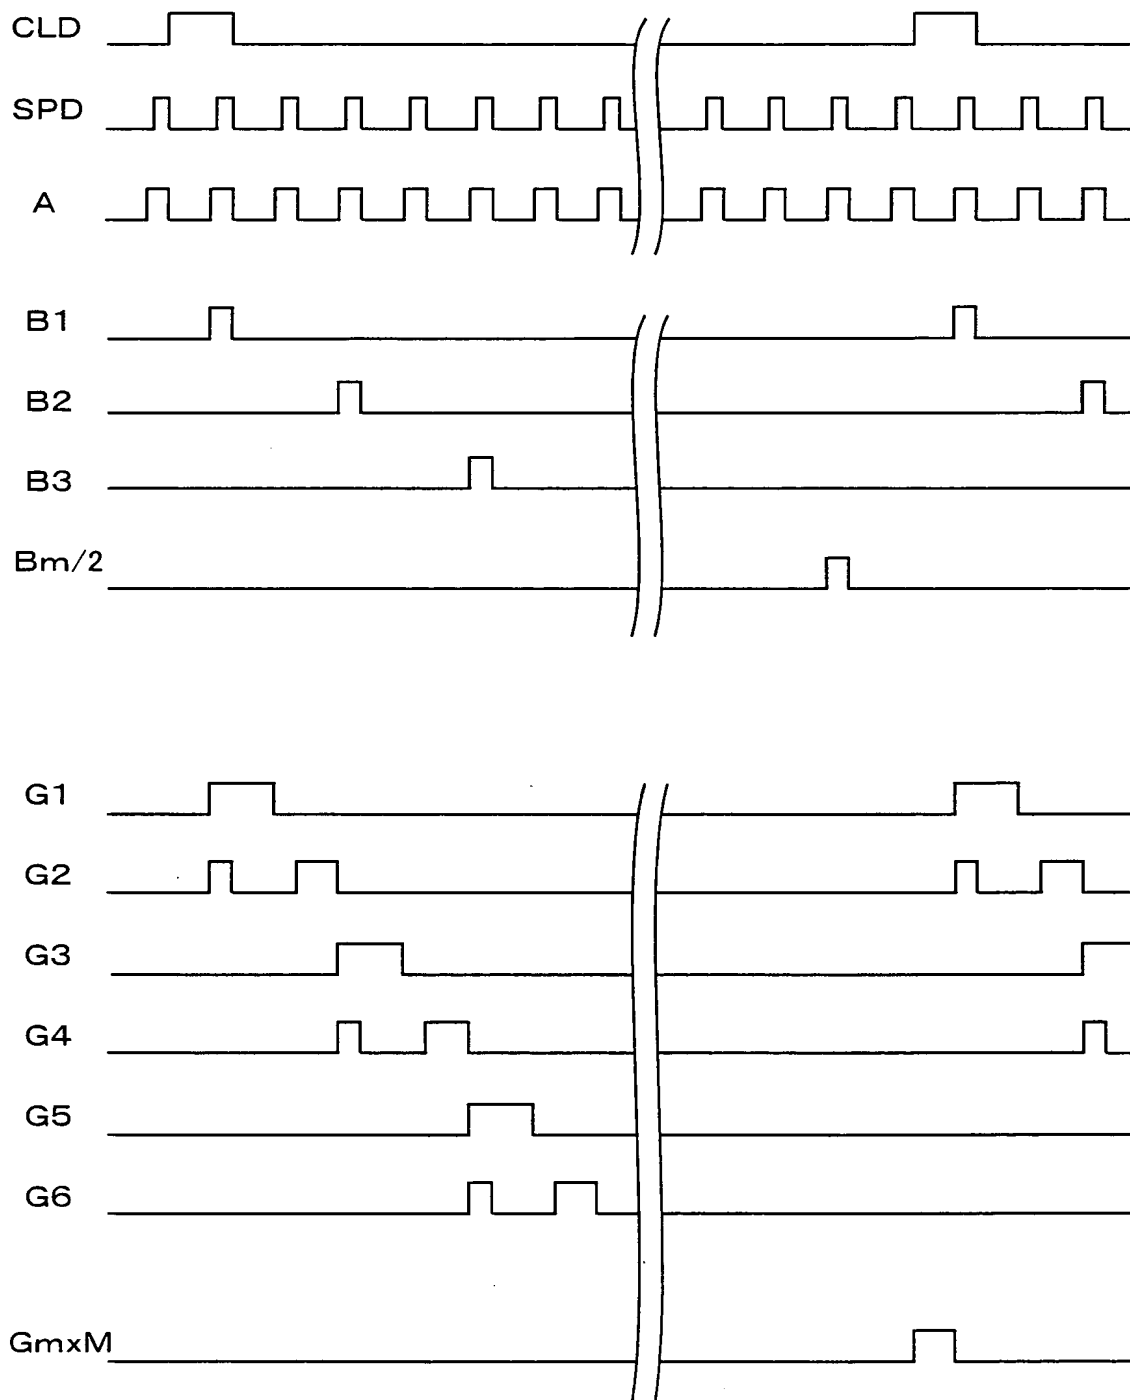

FIG.5

Figure 1 consists of 12 micrographs arranged in two rows of six, illustrating the development of a chick embryo. The top row shows the early stages: 1. Fertilized egg with a single cell, 2. Two-cell stage, 3. Four-cell stage, 4. Morula stage, 5. Gastrula stage, and 6. Early neurulation. The bottom row shows the later stages: 7. Late neurulation, 8. Somite formation, 9. Limb bud formation, 10. Late stage embryo, 11. Hatched chick, and 12. Hatched chick. Each image is labeled with a number and a brief description of the stage.
